

10 REASONS TO BECOME AN EVISIT DOCTOR!

1

Increase Revenue. Offer eVisit.

In medicine, every second matters and every penny counts. Knowing this, we created eVisit with healthcare providers in mind. Designed to fit your existing workflows, eVisit increases patient flow and revenue; \$21,600 of additional revenue per provider, on average.

2

Increase Patient Satisfaction. Keep Your Patients.

Patients want convenience. A recent study by Harris Poll showed 64% of patients wanted the option to have a video visit with a doctor, and 17 million would switch physicians for the availability of video visits. Treat patients when and where it is convenient for them. Satisfaction rates will skyrocket!

3

Reduce No-Shows. Recoup \$30k/year.

Did you know just one no-show a day can cost you as much as \$30,000 a year? More convenient access to care means more patients show-up for their appointments. You'll love how simple it is to treat your patients remotely; your patients will love you for making their lives easier.

4

Save Time. Boost Practice Efficiency.

The average eVisit takes 3-5 minutes from start to finish versus a 10-15 minute in-office visit. Keep your patients away from the ER and Urgent Care for minor issues. Offer post-op follow-up care in the comfort of their homes. eVisit saves time for you and your patients.

5

Go Home Early. Say Goodbye to Burnout.

Between follow-ups, calling in scripts, juggling walk-ins, and working around no-shows, you've barely got time for lunch. When you can diagnose and treat your patients from anywhere, you're not tied to your office. So go ahead — head home early, go on vacation. Keep your patients at your fingertips and treat them on your terms.

6

Monetize Treatment. After-Hours.

Time spent attending to after-hours calls adds up quick. And for many physicians, prescription refills, follow-ups and patient emails don't get compensated. eVisit allows you or your staff to care for patients after-hours and monetize those encounters. You could increase revenue up to \$21,600 a year with just 10 visits a week!

7

Improve The Patient Experience.

Increasing your accessibility to patients results in a better patient experience. eVisit offers a simple way to stay connected with your patients and ensure they're getting the attention they need, on your terms. The result? Happier, healthier patients who'll be talking about you all over town!

8

Be An Early Adopter. Love Medicine Again.

Be on the cutting edge of healthcare technology and innovate the way you practice medicine. With eVisit as your telemedicine partner, your colleagues will look up to you and your patients will adore you. Be apart of the exciting new benefits that eVisit is bringing to healthcare.

9

Improve The Healthcare system. Increase Access to Care.

We're on a mission to fundamentally simplify healthcare for healthcare providers and their patients. The tools you use should improve your practice, not make it more complicated. Help improve healthcare with eVisit by improving access to the doctor your patients want to see — you.

10

Gain A Partner. We're Here to Help. Seriously.

We're a physician-first company. What does that mean? In short, we're not just another technology vendor — we're a physician partner focused on improving the provider experience. Whether you're growing your practice through tips and trick from our blog or implementing eVisit, we're here for you!
